

For 14 years, we have been designing and making the world's only professional Super SMT Capacitor Kits™ which offer the most convenience for obtaining any value of SMT capacitors in the shortest time with the highest accuracy.

The **Super SMT Capacitor Kit™** has one of these options in capacitor size and number of values:

0402 size 70 values, 0.5pF to 1.0uF,
±0.25pF or ±5% to ±10%;

0603 size 79 values, 0.5pF to 4.7uF,
±0.25pF or ±5% to ±20%;

0805 size 83 values, 0.5pF to 22uF,
±0.25pF or ±5% to ±20%;

1206 size 77 values, 1.5pF to 47uF,
±0.25pF or ±5% to ±20%.

In terms of number of pieces per value, it can be: 50PCs, 100PCs, 200PCs and 500PCs.

The capacitors are pre-sorted and stored separately with their main specifications, capacitance, material, voltage, and tolerance, clearly marked on each lid, see the photo on the right side, in our unique sturdy snap-lock

Super SMT Component Enclosure™, which has **128 individually lidded compartments**, 0.87" (L) x 0.59" (W) x 0.63" (D) or 22 x 15 x 16 (mm).

The enclosure takes the same surface space as a letter size paper and measures only: **11" (L) x 8.5" (W) x 1.75" (H) or 280 x 216 x 45 (mm)**.

Operating the enclosure is easy and convenient that your time for obtaining a particular capacitor is minimized to seconds. The kits can easily be placed on a work bench, put on a shelf, or transported to other sites, making them the best choice for building prototypes, doing experiments on new circuits, or reworking printed circuit boards.
